This collection is designed to help people who like to lead singing in all types of places; classrooms, day centers, community halls, camp-fires, coaches. They are grouped in genres or themes but other than that they have no special significance other than just being good songs. Remember that the printed notes are only a starting point for your own and your group's creativity and sense of fun. And, if you're not having fun, you're not doing it right! Wishing you continued joy through song.

Julian Raphael, May 2015
